

WhiteBoard

Git Bash into the correct directory

Run this after every command to see what has changed and what hasn't

```
git status
```

Pull New Exercise Code / Solution Code

```
git pull upstream main
```

Push Exercise Code

```
git add -A
```

```
git commit -m "My commit message"
```

```
git push origin main
```

<shift> Insert – will paste text into Bash command line. Or right-click and choose paste
